

Somfy Oceania Product Update

In an effort to continually improve our range, Somfy's 40mm motor offer has recently undergone an upgrade.

Based on market requirements, customer input and changes in technology; improvements have been made to the gearbox and brake to improve the motor's

overall performance.

The main points to note with this product update are:

- Change in product reference number and motor names and descriptions
- Some motors are slightly longer (10-27mm)
- Motor speed for the 4Nm and 13Nm motors has increased by 2rpm - the 3Nm remains 30rpm

- The 3Nm ranges are sold in order multiples of 10 (Altus) or 12 (LS40) units

- Pricing has not changed

Phase in of these new motors will be progressive over the next 6 months.

See the table below for approximate change over dates.

Regardless of which part number you order during this period, Somfy will

automatically supply the available motor at the time of order. As we progressively switch to the new product the old references will become obsolete. It is recommended you begin using the new references as soon as possible.

Please contact your Somfy Regional Sales Manager or our Technical Support team on 02 8845 7200 if you require any further information.

Old Reference	Old Description	New Reference	New Description	Old Length (mm)	New Length (mm)	Old Speed	New Speed	Order Multiple	Approx. Change Over Date
LS40 Range									
1020010	Mercure 3/30 2.5M White Cable	1020147	LS40 3/30 2.5M White Cable	458	485	30rpm	30rpm	12	1/3/2016
