

 TaHoma™ One

You and
your home
always connected

somfy®

 Building
happiness

 **Home** is where you spend time with your family, entertain your friends and feel safe and relaxed. Creating a comfortable and welcoming environment is vital to enjoying your home.

.....

The TaHoma™ One home automation system simplifies the interaction between you and the motorised applications in your home. It's easy to transform your living environment and manage your blinds, curtains, awnings, roller shutters and RTS enabled lighting to create a simpler way of life - one that is more secure, comfortable and energy efficient.

The intuitive and user-friendly interface has been optimised for smartphones and tablets. You can stay connected to your home with ease via the free app which is available for Android and iOS.

Stay connected to your home!

Just 2 simple menus to

connect and manage all the applications in your home

My Home

Flexibility to control your home

- Shows all the compatible applications in your home at a glance.
- Control your motorised applications with options such as individual or group control.

My Scenes

Play Your Favourite Scenarios for Maximum Comfort

- With just one touch you can create unique scenarios to match your daily routines and activities.
- Set scenarios to automate your motorised applications and lighting on a seven day schedule so you can effortlessly enjoy their many benefits.

The TaHoma™ One Box, the heart of your connected home

The TaHoma™ One home automation system offers convenient control of any Radio Technology Somfy (c) RTS motorised applications, along with RTS enabled lighting devices with a smartphone or tablet. It consists of a simple and discreet box which plugs directly into standard wall outlets and communicates over your home's WiFi network.

The TaHoma™ One app is available for Android and iOS.

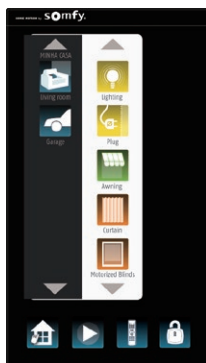

Create a simpler way of life

Centralise and control all the applications in your home

Create the ultimate environment of comfort, security and energy efficiency throughout your entire home with TaHoma™ One. Create a simpler way of life by eliminating the need to walk from room to room to adjust your blinds and lighting.

The home automation system allows you to simply control all the applications individually or in groups to create your own unique scenarios to suit your lifestyle.

Customise
your interface
with these
unique icons

Free yourself from daily routines by setting your scenarios so multiple applications operate together with a single tap. You can personalise the scenarios in your home to suit your lifestyle.

Wake up

Night light off and the blinds automatically rise to allow the morning sunshine to illuminate your bedroom at 7am every weekday morning and 9am on weekends, so you can start the day with natural light.

Baby Nap

The lights are switched off and the blinds automatically go down to keep the room dimmed and cool at 1pm daily, for the perfect sleeping environment.

Evening

Create a scenario so that all your blinds and curtains automatically close at 7pm, providing added privacy and peace of mind.

Somfy is the leading global manufacturer of intelligent, quiet motors and electronic controls for interior and exterior window coverings. For more than four decades, Somfy engineers have designed solutions for both the commercial and residential markets to motorise window coverings such as blinds, curtains, awnings and roller shutters. Somfy's aim is to bring more happiness to everyone, everyday, everywhere, by creating connected solutions to create a simpler way of life - one that is more secure, comfortable and energy efficient.
