## CONNEXOON

### PRODUCT SPECIFICATIONS

#### OPERATING PRINCIPLE

**RTS Communications**  
between Connexoon Window  
RTS and the home's devices.

**Ethernet Communications**  
between the router and the  
Connexoon Window RTS device.

#### Remote Control (3G/4G)

Commands sent from the  
smartphone via the 3G/4G  
Internet network.

#### Control from Home

Commands sent from  
the smartphone via the  
home's WiFi.

#### PRODUCT FUNCTIONALITIES

#### Individual Control

Connect up to four smartphone devices, each with  
individual, personalised control

#### Ambiance Replay

Register a position for your window coverings and  
your lights to reproduce your favourite moments

#### Centralisation

All of your Somfy RTS solutions in one place, allowing  
you to open and close with just one touch

#### Remote Access

Maximise the many benefits such as energy saving  
and privacy even when you're away from home

#### Timer

Schedule the opening and closing of your equipment  
at the time and date of your choice

#### Voice Control

IFTTT compatibility allows for voice control with  
third-party voice assistants including Amazon Alexa  
and Google Assistant.
