Set up your TaHoma® switch
in just a few easy steps

somfy.

# Box Inclusions

TaHoma® switch hub

Mains Adaptor

USB Power Cable

Quick Start Guide &
QR codes

Pre-start Checklist

For a seamless set up, please ensure:

○ All Somfy (RTS and Zigbee) motors and compatible equipment are fully charged.

○ Somfy RTS motor set-up is complete - pair remote controls, set motor end-limits and 'my' position.

○ Your internet router is active and operational (TaHoma® switch only operates with 2.4GHz (4G) WiFi).

○ WiFi network must be a private/secured with a password.

○ An active email address to create a TaHoma® switch account is required. It cannot be the same email address used with an existing Connexoon Window RTS.

○ Ensure you have downloaded and setup an account with all 3rd party compatible applications on your smart device.

○ For Zigbee devices, have your motor and Ysia control QR code ready, prior to pairing your Zigbee motor, TaHoma® switch and motor limit settings.

○ *Installation tip for building Zigbee mesh network:* for a seamless setup, pair any plugs/wired Zigbee motors first. Then setup WireFree Zigbee motors, followed by any remotes.

Install the TaHoma® app
# on your smart device

1

Download the TaHoma® app using
the QR code on the underside of
your TaHoma® switch box or the
